Basel Elbow Course

Program preview

6th Basel Elbow Course
January 28 & 29, 2022

Instructional Course, University of Basel

Hands-on Workshop on Cadavers

With Faculty from Harvard & Mayo Clinic

Registration on www.orthoxl.ch or by e-mail: elbowcoursebasel@das-eventbuero.ch

WELCOME

Prof. Dr. med. Andreas Marc Müller
Department of Orthopaedic Surgery
University Hospital Basel, Switzerland

Prof. Dr. med. Claudio Rosso
Shoulder and Elbow Center
ARTHRO Medics, Basel, Switzerland

DEAR COLLEAGUES

In 2020, we were one of the last 1:1 courses before the pandemic caught the (medical) world. We thus postponed our 2021 course to 2022 and are now happy to see you back in Basel. We cordially invite you to the 6th edition of our Basel Elbow Surgery Course. Our elbow community is growing every year.

We are happy to present the newest techniques with accompanying talks from a world-renown faculty (CH, GER, IT, NL, BE, UK, USA). As always, our course addresses advanced techniques for established surgeons while giving you the possibility of discussing cases with the highly experienced faculty. We leave plenty of room for discussions as these were missed during the CoVid19 pandemic while holding only online meetings.

The course will be held at the Anatomic Institute of the University of Basel in Switzerland. The cadavers are Thiel-fixed which gives a soft and natural feeling. We will give insight from simple elbow arthroscopy to complicated cases including elbow arthroplasty. In 2022, we will most probably be able to present „real“ elbow fractures for ORIF and hemiarthroplasty. You will also be able to profit just from the talks without cadaver work („Basel light“). With „Basel all-in“ you will be able to access all talks and actively participate in cadaver work. We will meet for our socializing course dinner after day 1. Basel is known for the „Art Basel“. We are lucky to have an airport very close to the city.

We are looking forward to welcoming you in our beloved city of Basel.

PROGRAM – FRIDAY, 28 JANUARY, 2022

| Schedule | Topic | Faculty |
|--|--|---------------------------------|
| 07:30 | Registration / Coffee | |
| 08:00 | Opening and welcome | C. Rosso / A. Müller |
| Anatomy | | C. Rosso / A. Müller |
| 08:10 | Pathoanatomy of the unstable elbow | |
| 08:25 | CT scans in elbow instability | Th. Wischer |
| 08:40 | Dynamic ultrasound in elbow instability | G. Tamborrini |
| The unstable elbow and associated lesions | | L. Oh / M. Morrey |
| 08:55 | My algorithm for elbow dislocations | S. Siebenlist |
| 09:15 | When and how to transpose the ulnar nerve? | D. Eygendaal |
| 09:35 | Coffee break / Industry / Transfer to lab | |
| Cadaveric specimen workshop: Arthroscopy | | |
| 09:50 | Diagnostic elbow arthroscopy and arthroscopic arthrolysis, ECRB release and microfracturing, Arthroscopic coronoid fracture fixation- ARIF | C. Rosso / A.Müller / M. Morrey |
| 12:00 | Lunch | |
| 12:10 | Lunch workshop: ORIF of the distal humerus | K. Wegmann / Medartis |
| ...continued | | |
| 13:00 | Coronoid fractures and PMRI | M. Morrey |
| Case discussions | | L. Oh / M. Morrey |
| 13:30 | Elbow instability - panel discussion | L. Oh |
| 13:55 | Elbow stiffness - panel discussion | D. Eygendaal |
| 14:20 | Coffee break / Industry / Transfer to lab | |
| Cadaveric specimen workshop: Instability | | |
| 14:30 | LUCL reconstruction OATS reconstruction of the capitellum | B. Hollinger |
| 16:00 | UCL reconstruction - Tommy John | L. Oh |
| 17:30 | Distal Biceps Reconstruction | J. Singh |
| 18:30 | Wrap up of the day | C. Rosso / A. Müller |
| 20:00 | Dinner at "Baracca Zermatt", Basel | |

PROGRAM – SATURDAY, 29 JANUARY, 2022

| Schedule | Topic | Faculty |
|--|---|---------------------------------|
| 08:00 | Opening and welcome | C. Rosso / A. Müller |
| Trauma around the elbow | | D. Eygendaal / A. Müller |
| 08:10 | Complete and partial distal biceps ruptures | R. van Riet |
| 08:30 | Monteggia and M-like lesions | M. Zumstein |
| 08:50 | Fractures of the capitellum | Ch. Spross |
| Prosthetic replacement | | M. Morrey / B. Jost |
| 09:10 | Treatment options in elbow osteoarthritis in the young | A. Müller |
| 09:30 | Coffee break / Industry / Transfer to lab | |
| Cadaveric specimen workshop: Trauma | | |
| 10:00 | Medial approaches the elbow, medial facet ORIF, ulnar nerve transposition | B. Jost / D. Eygendaal |
| 11:30 | ORIF of a real distal humerus fracture | K. Wegmann |
| 12:30 | Lunch / Industry / Transfer to Lab | |
| ... continued | | |
| 13:10 | Hemi arthroplasty in distal humerus fractures | A. Titchener |
| 14:30 | Hinged fixator | K. Mader |
| 15:30 | Total elbow replacement | M. Morrey / B. Jost |
| 16:50 | Certificates, Evaluations | S. Mürlebach |
| 17:00 | End of the meeting / Individual departures | |
